

Evokat Premier®

You're Going Like Evokat Premier

Evokat Premier, known simply as "Premier" is our flagship product and represents a leap forward in functionality, design, and flexibility compared to other authoring solutions.

Some trading partners still cannot accept ACES or PIES XML formats, but the Premier Report Library is your gateway to data distribution beyond the reaches of the industry standards.

It is an Illumaware tradition to allow you to have complete flexibility over how you identify and define your fitment definitions, and with a revamped authoring process, it is easier than ever to build your catalog how you want it.

Premier provides an ultra flexible approach to product information that allows you to provide unique sets of data to your receivers, allowing you to manage all of their disparate requests in one place.
